We have the pizza sales numbers to back up our claim that it is one of the most often requested pizza toppings. The following is a list of the most well-liked varieties of pizza and catering alternatives available across the United States.

The 10 Most Popular Types of Pizza

1. Cheese Pizza

It shouldn't come as a surprise that a timeless work is a statistical front-runner. One of the most common selections is pizza topped with cheese. It will never be anything other than a straightforward and unadorned masterpiece that stands on its own.

2. Veggie Pizza

Vegetables are the ideal topping for a cheese pizza when you want to add some colour and variety to the pizza's texture. And the only thing stopping you is your own creative capacity. An intriguing and delicious veggie pizza may be made with anything from peppers and mushrooms to eggplant and onions, and everything in between.

3. Pepperoni Pizza

There's a good reason why this style of pizza is consistently ranked among the most popular ones. Who doesn't enjoy the satisfying crunch and briny flavour of biting into a round of pepperoni?

4. Meat Pizza

If pepperoni isn't cutting it for you and you're searching for a pie that has a little bit more substance, a meat pizza is an excellent and common alternative to consider. Adding a lot of ground beef and sausage can make a hearty dinner.
